

# Rotary Park Parking & Infrastructure

## Project Description:

This project consisted of the reconstruction and paving of approximately 2,700 L.F. of 22' wide roadway including necessary improvements to perform this work. It also included improvements to the parking areas at the end of and along Rotary Park Drive, ADA accessibility upgrades, installation of a new domestic water line, and remediation of existing drainage issues within the park.

## Design Team:

Moore Design Services

## Total Project Cost:

\$768,340

## Contractor Team:

Carter Douglas Company

## Contract Completion Date:

December 2017
